## MISSING MAN RETURNS

Former Delegate Charles Kelly Arrives at New York From Europe.

ARREST FOLLOWS AT PHILADELPHIA.

Under Indictments Charging Him On Several Counts With Bribery In Connection With Municipal Legislation at St. Louis.

New York, Nov. 28. — Charles F. Kelly, former speaker of the house of delegates of St. Louis, landed from the White Star steamer Celtic, when she docked, says the Evening World. At the pier to meet him was Congressman-elect James J. Butler of St. Louis. Butler's bookkeeper, William J. Sullivan, and William Ratigan, a St. Louis contractor and neighbor of Kelly's, were his ship companions. Kelly's face was white and wrinkled when he left the ship. He started when the reporter greeted him by name. Congressman Butler tried to shut the reporter off, but Kelly recognized him as a St. Louis acquaintance and extended his hand. "Please let me alone for today," he said, "I have nothing to say. I have just received word that my son is dead, and I am going right back to St. Louis." Congressman-elect Butler denied that he had come to the pier to meet him. "I am here to meet my bookkeeper, Mr. Sullivan," he said.

Kelly, the former speaker of the St. Louis house of delegates left St. Louis several months ago, soon after the grand jury had returned indictments charging him on several counts with bribery in connection with municipal legislation for street railway and other franchises. His bonds were fixed at \$30,000. Kelly, it is charged, is the man who distributed the \$47,500 boodle fund among members of the house combine three years ago for the passage of the city lighting bill. Until his return his whereabouts were unknown to the authorities. A reward of \$300, offered by the state, for Kelly's arrest still stands.

Kelly Arrested.

Philadelphia, Nov. 28. — Charles F. Kelly, formerly president of the house of delegates of St. Louis, was arrested in this city. He was taken from the western train, which left New York about 11 o'clock, by a local detective. The arrest was made on a fugitive warrant charging Kelly with perjury and bribery. Kelly told the detective that he had been in Ireland and left Londonderry with the intention of proceeding direct to St. Louis and facing the charges against him there. There is a reward of \$1,700 for his arrest. Kelly will be held for requisition papers.

Too Late For Testimony.

St. Louis, Nov. 28. — Chief of Police Kiely has telegraphed to New York, Philadelphia and intermediate points, asking the authorities to arrest Kelly. It is believed by Kelly's friends that he will try to evade arrest, and after reaching St. Louis give bond. It is now too late for him to give any testimony before the grand jury, which adjourned Friday afternoon, on the city lighting deal. Because of the statute of limitations, Friday was the last day on which any one connected with the lighting deal can be indicted.

Florence Burns Married.

New York, Nov. 28. — Florence Burns, the young Brooklyn woman who was arrested and later exonerated of the murder of her sweetheart, Walter Brooks, in a hotel in this city, some months ago, was married last week to Charles R. Wildrick. The marriage was kept secret until now. Wildrick is a son of Lieutenant Colonel Abram C. Wildrick, United States army, who died in 1894. He was arrested last April, charged with passing a bad check at the Hotel Gerard, where he had been accompanied by Mabel Strong, a wealthy young woman of Cleveland, O. Miss Strong's father came on from Cleveland to look after her, but she would not leave here while Wildrick was in prison, and she was removed to St. Luke's hospital, where she died shortly after of quick consumption.

General Nord's Ultimatum.

Port-au-Prince, Nov. 28. — General Alexis Nord, who was war minister of the provisional government, and who is at St. Marc with about 8,000 to 10,000 men from Gonaives, has sent an ultimatum to the government here demanding the invalidation of the election of the deputies who are members of the party headed by M. Firmin, the self-exiled leader of the recent rebellion. If the chamber refuses to cancel the election of these deputies the outbreak of another civil war is probable. The general opinion is that the chamber will reject the general's demand.

## WAGES OF MINERS.

The Coal-Road Presidents Will Furnish Tabulated Statistics.

Scranton, Pa., Nov. 28. — Attorney Darrow, counsel for the United Mine Workers, announced that the coal road presidents had promised to give the tabulated statistics in regard to miners' wages, etc., to the counsel for the miners some time this week. The big coal mining companies have had expert accountants at work preparing these figures for several weeks past. It was because this part of the evidence was not ready for presentation that the adjournment of the coal strike commission became necessary. Counsel for the miners will have until next Wednesday in which to expect this important part of their opponents' evidence. When the commission shall meet District President Nicholls will be placed on the stand by the miners. President Mitchell was in conference with Mr. Nicholls most of the day.

Criticizes the Emperor's Speech.

Berlin, Nov. 28. — The Vorwarts, commenting on Emperor William's speech on the day of the funeral of Herr Krupp at Essen, says: "While prosecution is still pending against us, and the truth is not judicially yet ascertained, the emperor anticipates the court's findings by pronouncing our guilt out of hand. Is it allowed that the crown at the initiatory stage of a pending case utter a verdict, and thereby place the judges in the painful dilemma of either contradicting his majesty or subjecting themselves to the suspicion that their judgment was influenced by him? Justice stands above everybody, even above the emperor, and the freedom of courts is life and nerve of every state." The paper adds: "The monarchy is constitutionally irresponsible. An adequate answer to the emperor's speech is prevented through the lese majeste paragraphs."

Swindling Charged.

Buffalo, Nov. 28. — William Landau, who was arrested in New York on suspicion of being connected with a swindle involving \$200,000, formerly kept a wholesale clothing store in this city and a branch at Niagara Falls. He left Buffalo some time ago, and many local creditors have since been trying to locate his property. They found that the stocks have been transferred by bills of sale, and several suits have been brought to test the validity of these transfers. In the proceedings brought in the local courts statements have been made that Landau went to Texas, and also that he was in Europe.

Grain Rates Increased.

Washington, Nov. 28. — Official notice of an increase of 2½ cents per 100 pounds in the freight traffic on grain from Chicago to New York was filed with the interstate commerce commission. The new grain freight basis, which will be observed by the lines eastbound out of Chicago and other points in the territory east of the Mississippi river and north of the Ohio, is 20 cents per 100 weight. This increase in the grain schedule usually follows the closing of navigation on the Great Lakes.

Ruling in Salt Case.

Trenton, Nov. 28. — Chancellor Magie directed the receivers of the National Salt company not to pay Joy, Martin & Company of Chicago \$10,400 for October storage of salt belonging to the company. This order is made on the ground that the market value of salt has already been paid in storage charges; that the cost of production is much less than when the salt was originally stored, and that the amount of salt now being produced in this country is largely in excess of the demand.

Held For Examination.

New York, Nov. 28. — William H. McNutt, who was arrested here at the request of the Chicago police, was arraigned and held in \$10,000 for examination. The complaint charges that Willard Block, a Chicago lawyer, was induced to buy \$13,500 worth of stock in the Horseshoe Copper Mining company of America. When arraigned McNutt denied that he was the man wanted, but he said he was president of the Horseshoe Copper Mining company, and that he knew Block.

Judicial Appointments.

Washington, Nov. 28. — The following appointments under the department of justice were agreed to at the cabinet meeting: Judge L. L. Lewis of Richmond, Va., United States district attorney for the Eastern district of Virginia; Sol Bethea, United States district attorney for the Chicago (Ill.) district; and Morgan H. Beach, United States district attorney for the District of Columbia.

Stuebenville, O., Nov. 28. — James Neel was accidentally and perhaps fatally shot by the discharge of his gun as he crossed a fence while hunting near Dillonvale.

## NO TARIFF REVISION.

Chairman Payne Does Not Expect Any Attempt at This Session.

CONFERS WITH THE PRESIDENT.

Program For Anti-Trust Legislation Not Disclosed — Presidential Appointment—Negroes and Federal Positions—Washington News.

Washington, Nov. 28. — Representative Sereno E. Payne of New York, chairman of the ways and means committee of the house, and Representative Littlefield of Maine, who has been prominently identified with the proposed anti-trust legislation, saw the president separately Friday. Mr. Payne does not expect any attempt at tariff legislation at the approaching session. The most important work of his committee this winter, he thinks, will be in connection with Cuban reciprocity. If a treaty is negotiated, he believes the assent of the house will be required.

Mr. Littlefield was reticent concerning the program for anti-trust legislation. He said he was not yet prepared to announce his withdrawal from the speakership race.

Negroes and Federal Jobs.

Washington, Nov. 28. — In reply to protests against the appointment of Dr. Crum, a negro, for the collectorship of the port of Charleston, S. C., the president has sent a letter to a prominent citizen of that place, in which he says in effect he does not consider race or color grounds for objection to an applicant. The question of "negro domination," the president says, does not enter into the matter at all. He concludes: "It seems to me that it is a good thing from every standpoint to let the colored man know that if he shows in marked degree the qualities of good citizenship—the qualities which in a white man we feel are entitled to reward—then he will not be cut off from all hope of similar reward."

Minister Hunter's Request.

Washington, Nov. 28. — Minister Hunter, at Guatemala City, has cabled the state department that his son Godfrey, who shot Fitzgerald, is 24 years of age, is in business on his own account, and therefore is not under the protection of the legation. All that he asks is that Mr. Bailey, the secretary of the legation, be allowed to testify before the Guatemalan courts. The permission has already been granted by the department.

Presidential Appointment.

Washington, Nov. 28. — The president has decided to appoint W. J. Youngs of Oyster Bay, United States district attorney for the Eastern district of New York, to succeed George H. Pettit, whose term expires Dec. 20. The president made his decision known to Senator Platt, and the latter has acquiesced in the appointment. Mr. Pettit has held the position for 15 years.

Personnel of Canal Commission.

Washington, Nov. 28. — The president has given no consideration as to the personnel of the isthmian canal commission. He told Senator Cullom of Illinois that until the pending negotiations with Colombia were finished and the government ascertained exactly where it was at, he would not consider the matter of appointments on the commission.

Caused Excitement Abroad.

London, Nov. 28. — The announcement that the United States department of agriculture had given notice of the establishment of a quarantine of cattle and sheep, etc., in the New England states, and prohibiting the exportation of such animals from Boston until further orders, caused excitement in Liverpool. The Mersey dock board derives a large revenue from the slaughter of Boston cattle at Birkenhead. Manager Lairages of the board says the restrictions will have far reaching consequences, and that possibly the cargoes of cattle now on their way to Liverpool from Boston will be quarantined. The English board of agriculture has ordered all ports closed against New England.

Football Victim.

Westchester, Pa., Nov. 28. — Charles Carr, 21, colored, of Philadelphia, died at the Chester county hospital from injuries received during a football game. Carr's neck was injured in a mass play and he was rendered unconscious.

Lincoln Portrait in the South.

Jackson, Miss., Nov. 28. — A portrait of President Lincoln will be placed in Mississippi hall of fame. The picture was furnished by Robert T. Lincoln of Chicago in response to a request, and will be placed alongside that of Robert E. Lee.

## CONCRETE HOUSE.

Walls and Floor Harder Than Granite. Owner Carries No Insurance on Structure.

[Washington City Correspondence of Enquirer.]

Three years ago Mr. George H. Hamilton, of this city, erected a six-story building of concrete under what is known as the Ransome system. He had trouble in obtaining a permit to erect the building, the experts alleging that it could never be taken down except by blowing it up with explosives, to the injury of adjacent buildings. There is not a stick of wood or a bar of iron in the entire structure, all the floors being of concrete subjected to a strain of 900 pounds to the square foot. Recently it was desired to make an additional door on the basement floor, but it was found that the entire opening would have to be chiseled out as if it were iron. It was attempted to drill through some of the interior walls for additional electric wiring, but no metal drill was found which was hard enough to go through the concrete, and the wiring was put along the wooden wainscoting. The experts pronounce the building as having ten times the strength it would have if it had been carved from solid granite. It has no party walls and there is not a crack or evidence of settling in any way, although there are a number of heavy iron safes on each floor. It has only twenty-five feet frontage. The owner carries no fire insurance on the building. The cost of construction was only about 80 per cent. of that of a steel building. In view of the proposed construction of the Ingalls building in Cincinnati the experience here is of interest.

## RECIPROCITY TREATY.

Cubans Will Accept It If a Certain Reduction Is Made.

Havana, Nov. 28. — If the Cuban reciprocity treaty, as now proposed, concedes a 25 per cent reduction in tariff duties, there is a strong probability of its acceptance by President Palma and the senate. Secretary of State Zaldo and Secretary of the Treasury Montes, the commission on the part of the Cuban government to negotiate the treaty, submitted five objections. Three of these are conceded by the United States. The fourth relates to Porto Rican coffee, and it is believed can be conceded by the United States without difficulty. This leaves only the question of the amount of reduction in the United States tariff. If the proposed 20 per cent is increased to 25 per cent, President Palma likely will send the treaty to the senate for ratification.

King Dodo.

"King Dodo," to be presented at Washington Opera House on Tuesday, Dec. 2nd, is said to surpass in many respects any American production of its kind. The music is tuneful and catchy and the book full of mirth provoking comedy. The girls are pretty and well drilled, the costumes dainty in the extreme and the scenic environment complete. This company is vastly better than last season and should be greeted by a crowded house. Everywhere this company has played this season the business has been bigger than last year. Now turn out and show them that Maysville people appreciate good things. Buy your seats now at Nelson's.

Two Men Asphyxiated.

Albany, Nov. 28. — William and Martha Hogeboom, aged about 60 years, were found dead in bed in a hotel here, having been asphyxiated by illuminating gas. They were residents of East Cobleskill, and arrived in this city to meet their two sons and daughter-in-law, who were to be discharged from the Albany county penitentiary after having served a term of six months' imprisonment for petty larceny and burglary. It is believed the deaths were accidental.

## HERE AND THERE.

Items of Interest From Nearby Towns and Villages Contributed by the Bulletin's Corps of Correspondents.

GERMANTOWN, Nov. 27th. — Boy's and Girl's Rally Day, observed Sunday night by the Christian Sunday school of Germantown, was quite a success; more so even than the promoters of it had expected. The exercises were appropriate to the occasion and were well rendered. We heartily commend the ladies in charge for the way in which they trained the children. They were in good training and everything went off in clockwork style. The management was of the very best. We will long remember the duet, "The Voice of Thanksgiving," as sung by Miss Tillie Critchfield and Miss Ethel Harmon. He who "crowneth with goodness the year" has indeed "tuned their lips to song." The entire program was good and was enjoyed by an appreciative audience. The offering was also good, amounting to nearly \$10. May the Lord add his blessing to our prayer. A CITIZEN.

## STRUCK A BROKEN RAIL

Story of the Wreck of the St. Louis Flyer on the Big Four Road.

A DOZEN PERSONS WERE INJURED.

The Train a Few Hours Later Was Wrecked a Second Time, But All Escaped Serious Injury—Accidents on the Rail.

Indianapolis, Nov. 28. — Passenger train No. 43, the St. Louis flyer on the Big Four, was wrecked early in the morning on a high embankment, a half mile west of Avon, Hendrick county, six miles east of Danville. Three passengers were seriously injured and a dozen or more were slightly hurt, but none fatally. The train was running at a high rate of speed and struck a broken rail. The engine and two mail cars got over safely, but the other cars left the track. The New York sleeper, on the rear end, rolled over twice and down the embankment of 25 feet landing bottom side up. It contained three passengers, the porter and the conductor. The sleeper next to it was from Cleveland. In it were 11 passengers. This car turned completely over, but remained at the top of the embankment. The imprisoned passengers got out by breaking out one of the windows, and all escaped with slight injuries. A telephone on an adjoining farm was used to send for help.

A list of the severely injured follows: Mrs. Anna Englehart, Middleport, O., terribly cut about the head, injuries may be fatal; Mrs. Stephen Englehart, Middleport, O., seriously cut about the head and bruised on the body; Otto Gresham, Chicago, son of the late Walter Q. Gresham, shoulder sprained; Ira L. Klein, Cleveland, O., face badly bruised; George C. Doan, St. Louis, conductor Pullman car Formosa, hip and back badly injured. The others were not seriously injured.

The train was delayed for several hours, then a new train was made up and the run to St. Louis was resumed. The train was running at a high rate of speed, 35 miles beyond the scene of the first wreck, when it ran into an open switch at Carbon. The engineer saw the danger, but was running too fast to stop. The front trucks of the engine left the tracks and another delay was caused. Nobody was hurt in the second wreck, and little damage was done. All the persons injured near Danville were taken to St. Louis in charge of Dr. Ford, the company's surgeon. All will recover.

Hit With a Worktrain.

Lacrosse, Wis., Nov. 28. — An open switch caused the Northwestern passenger train, eastbound, ran into a worktrain on that road, near Lytle, 13 miles above here. Four men, members of the bridge crew, were eating dinner in the tool car which was struck by the engine and quite seriously hurt. They were brought to the city and taken to the Lacrosse hospital. The engineer and fireman jumped from the moving train, and were badly scratched. Aside from the shaking up, the passengers experienced no trouble.

Freight Train Wrecked.

Chicago, Nov. 28. — An engine on a Wisconsin Central freight train was wrecked at Des Plaines, injuring three persons, one fatally. They were: John Scheidel, engineer, badly scalded about the face and head; Albert Pinneo, brakeman, face and hands scalded; Walter Sherman, fireman, scalded, will die. The accident was caused by the locomotive jumping the track. The engine and tender rolled down an embankment, and the three occupants of the cab were caught in the wreck.

Diseased Cattle in New England.

Boston, Nov. 28. — The cattle bureau of the state board of agriculture has received about 100 individual reports of the presence of the foot and mouth contagion, which has caused the secretary of agriculture to prohibit the exportation of cattle from Boston, and to establish a quarantine of, cattle, sheep and swine in New England. It was stated that all reports received had come from localities within 75 miles of Boston. The closing of the Brighton stockyard, the principal ones in New England, by the state board of agriculture will cause an interruption to traffic which under ordinary circumstances agreed to aggregate 500 to 700 head of cattle a day.

Sugar House Burned.

New Orleans, Nov. 28. — The magnificent sugar house at Ashton plantation at Luling, La., formerly owned by John A. Norris and now the property of Charles A. Farwell and others, was burned. The total loss on sugar house and products is \$130,000.

DURING the recent campaign Republicans resolutely in favor of a revision of the tariff, but they wanted the work done by friends of the system. Now their leaders have decided that there is to be no tariff revision. In arriving at this conclusion they were, of course, aided to a great extent by the trusts, says the Georgetown (O.) News-Democrat. "It will be interesting," adds the Democrat, "to watch with what tenderness and circumspection the tariff and the trusts are handled from now until November, 1904."

NEW YORK, Nov. 22, 1902.—The really important news of the week was the discovery that the financial heads of the big railroad systems of this country had decided to institute a series of advances in freight rates, for the purpose of partly making up for the 10 per cent. raise in the wages of their employees. This is striking confirmation of the statement made recently in this paper that the railroad chiefs had combined to prevent strikes and to otherwise protect their interests. But they are too shrewd to force a general advance in transportation schedules. This would bring down on their heads public indignation. They will begin with some of the great commodities which have been carried at extremely low rates, such as grain, dressed beef, live stock, iron, steel, &c.

What a generous set one finds at the head of the big corporations! Some of them are making a big blow about their advance in the wages of their employees. Now they intend to make other people pay this increase, while they claim all the credit for it.

## THE MEDICS IN COUNCIL.

Physicians Enjoy a Thanksgiving Love Feast at Their Monthly Meeting This Week.

The Mason County Medical Society, as stated yesterday, held its monthly meeting on Wednesday afternoon and the occasion was made peculiarly interesting by the presence of two distinguished visitors—Dr. McCormack, the Secretary of the State Board of Health, and Dr. Wells, of Cincinnati, the Medical Director of this district. The address from Dr. McCormack was well received. The doctor found a medical body before him that had been an active and useful organization for three years. His duties as an inspector, reorganizer and pacificator were therefore very light. In the beginning of his address he launched into a strenuous defense of his somewhat aggressive pest-house policy, and feelingly commiserated the morbid susceptibility that seizes upon the operation of statutory laws. Disreputable doctors must be handled without gloves. An iron discipline is the only remedy for professional misconduct, and "breachy horses" can sometimes be most effectually handled when placed in the lead. Something must be done to elevate the degraded standard of these times. The medical profession, especially, falls lamentably short of the social and professional standards of these days that the "average practitioner" might even take lessons from his amiable, accomplished and high-toned brothers at the bar. But bad as the doctor is, he is better than the clergyman who is decorously deadheaded into Kingdom Come. To make the medicated clergymen properly appreciative he must be made to pay. At present the clerical patronage and appreciation are reserved chiefly for quack institutions and manufacturers of patent medicine. But the speaker repelled the imputation of pessimism. He resents every suggestion of the sort. He sees a brilliant future opening for the profession to which he is devoting his reformatory energies, and was pleased to see so strong a disposition in the profession of this county to push on the good work. The doctor was listened to with attention throughout and received a unanimous vote of thanks for his interesting address. He was followed by Dr. Wells in a few remarks along the same lines, which were admirably conceived and expressed.

Altogether it was a breezy and enthusiastic meeting and amply sustained the reputation which the society has established in the State.

Physicians desiring to connect themselves with the society will make immediate application to the Secretary, Dr. A. G. Browning. Annual dues, (county, State and national), eight dollars.

The Pogue Distillery Company will begin the winter run Monday.

But Wine of Cardui cured her the same as it has cured thousands of others and Mrs. McDonald has written this letter in order that other suffering women may secure from Wine of Cardui the same relief she got from it.

that I must do something to regain my health. A friend advocated your Wine of Cardui treatment so strongly that I decided to try it, although I had little faith in patent medicines. I am now very thankful that I did so, for within ten days blessed relief came to me, and in less than three months I was cured, and have enjoyed fine health ever since. I know there is nothing better for a sick woman who wishes to enjoy perfect health and am very pleased to give my hearty endorsement."

No suffering woman can afford to ignore such a letter as Mrs. McDonald writes. Her plans and advice have proved valuable in building up one of the greatest women's organizations in the United States and she takes time to give advice which she knows will help you.

Do not delay in securing this medicine. There is nothing to gain and everything to lose by delay. The choice is before you. Will or will you not secure relief now by taking Wine of Cardui? All druggists sell \$1.00 bottles of Wine of Cardui as well as 25c packages of Thedford's Black-Dranght.

### Old Age.

Old age as it comes in the orderly process of nature is a beautiful and majestic thing. The very shadow or eclipse which threatens it, makes it the more prized. It stands for experience, knowledge, wisdom and counsel. That is old age as it should be. But old age as it so often is means nothing but a second childhood of mind and body. What makes the difference? Very largely the care of the stomach. In youth and the full strength of manhood it doesn't seem to matter how we treat the stomach. We abuse it, overwork it, injure it. We don't suffer from it much. But when age comes the stomach is worn out. It can't prepare and distribute the needed nourishment to the body, and the body, unenriched, falls into senile decay. Dr. Pierce's Golden Medical Discovery is a wonderful medicine for old people whose stomachs are "weak" and whose digestions are "poor." Its invigorating effects are felt by mind as well as body. It takes the sting from old age, and makes old people strong.
